

Addressing the Silent Wounds of Psychological Trauma

Join Team Heal Trauma at the 33rd Annual Marine Corps Marathon

If you are working on issues addressing the psychological impact of: war and veterans, crime victimization, abuse and neglect of children and the elderly, and disaster preparedness and response, we want you on our team!

[Team Heal Trauma](#) is a charity running and awareness team dedicated to drawing attention to the pervasiveness and impact of psychological trauma. Psychological trauma is a common, but often ignored or overlooked experience for survivors of violence, abuse, neglect, disaster, terrorism, and war, impacting virtually all health and human service programs and services. With your help on our team, we can raise the visibility on this issue and work together to ensure that trauma is addressed and we can begin to turn the human, social, and economic consequences for individuals, communities, and the nation to a place of healing and wellness.

Legislators will be given VIP status at the race and will be included in coordinated media outreach between Witness Justice and the Marine Corps Marathon to bring as much visibility to the issue, and those supporting this effort, as possible.

[Join the team](#) as a runner (marathon or 10K), volunteer, or sponsor to demonstrate your commitment to addressing this important public health issue.
